

Chamber Goes Mobile

The Chamber has entered into an agreement with Cardagin.com to offer a mobile application for smart phones. For Consumers, the mobile app is downloadable for free at www.cardagin.com and gives you access to a growing number of local businesses and bargains.

And now, businesses in Biddeford-Saco can also sign up at www.cardagin.com Businesses that chose to sign up will be searchable from up to 50 miles away. Imagine that as travelers cross over the Piscataquis River Bridge, they will be able to find your business on their phone, make a reservation, call you, and get point to point directions to find you. It is a win-win situation and exposes your business to a whole new set of customers

Chamber members wishing to fully utilize this technology and advertise will receive a 50% discount off the normal price of \$200 per month. \$100 per month or a little over \$3 per day will now help you gain access to an entirely new set of customers. Chamber members will also receive an additional benefit in an ability to participate in a Chamber group within the mobile app. By being in the Chamber group, Chamber members can create member to member benefits. It will be a great place to reward one another with better offers than offered to the public.

The power of membership is something that we should be promoting and we believe that this mobile application is one more step down the road. We will be sending you more details in the very near future and will likely hold some sort of contest and award some free opportunities.

Feel free to contact us for more details.
